Student Declaration

Student ID Number:	U3176461
Unit Name:	Introduction to Information Technology
Unit Number:	4478
Name of Lecturer/Tutor:	Dr Damith Herath
Assignment Name:	HTML Web Programming Assignment
Due Date:	17/03/2017

You must keep a photocopy or electronic copy of your assignment.

Student declaration

I certify that the attached assignment is my own work. Material drawn from other sources has been appropriately and fully acknowledged as to author/creator, source and other bibliographic details. Such referencing may need to meet unit-specific requirements as to format and style.

Signature of student: _____ Kerryn Ng-Upton _____ Date: __17/03/2017__

Website Hierarchy

I decided to do a two-level hierarchy for an easy to navigate webpage.

This simple and precise navigation makes it clear for the viewers to see the content on available on the page. Using a two-level hierarchy limits amount of content on the home page so viewers are directed to the full content of the pages quicker and won't likely cause confusion. Images are used to help balance the aesthetic appeal of the page to make it more engaging and colourful for the viewers. The main header on each of the second level pages, provide tabs that allow for switching between pages quickly and easily. A blue colour scheme is used to represent sydney and is consistent through the whole website.
